

Your partner for a more **secure** future.

AUDIT & RISK MANAGEMENT CAPABILITIES

Ampcus offers clients access to certified risk management professionals and leading IT, software development, technology, testing, cybersecurity and forensic accounting practitioners. We collectively deploy our in-house SMEs across each project to provide the correct insights at the most critical time.

PRODUCT SPOTLIGHT: **ComplyX**

ComplyX is an advanced, integrated and AI-enabled compliance SaaS platform. It leverages intelligent automation and advanced monitoring techniques to streamline today's complex audit, risk and compliance process for large commercial enterprises to reduce third-party risk while improving compliance, cybersecurity, financial stability, and sustainability across the entire supply chain. Future add-ons to the platform will include **HITRUST**, **SOC**, and **ISO Support**, as well as **Data-Discovery capabilities**.
